

Condition 28	Cultural Resources
<p>Avoidance of cultural resources is the paramount mitigation measure to protect cultural resources potentially impacted during project development. Avoidance of all known and unknown cultural resources shall be the primary and preferred mitigation. If avoidance is infeasible, then work shall only continue when it has been determined to be consistent with the required Treatment Plan and testing requirements.</p>	
<p><b>Evidence of compliance:</b></p>	
<p>The approved Treatment Plan (March 2010) identifies all known cultural sites and specifies avoidance as the highest priority in protecting cultural resources. The Treatment Plan will be implemented as approved by the State Historic Preservation Officer.</p>	

**Condition Satisfied**
